

Run No: 2060

Date: 25-Mar-2018

Venue: Fleur de Lys, Widdington

Hares: Hold It For Me &

Scribe: Klinger

On arrival it did not feel like the first Sunday of Spring time but, yes, the clock had just gone back an hour. There were very few green shoots on the trees and it was initially a rather cold and sultry morning. About 40 odd hashers were greeted by the GM Hold It For Me after a team photo had been taken as requested by the very welcoming landlord (to go with the team photo from the previous run, which was on display in the pub.

The GM and pack gave a warm welcome to Bobbi and Tamsin (Little Blow's aunt and cousin) and to ~~Spicy Bear~~ Spicy Bear and Forest Dump, returning after their winter hibernation. I would think most of the credit for the well laid and excellent trail must go to the East of Pampisford (as this was the area where he masterminded the main trail for the 2017 run celebrations). It had lots of great countryside well laid with many checkbacks (some double; one of which were less than 50 yards apart - the latter was about three quarters around the 1 1/2 hour long trail and enabled Benghazi to lead about 4 walkers through to the front of the pack. Benghazi even found the correct trail after the next checkpoint. Tamsin kept well in with the running pack. It was an excellent trail (with many walkers coming in with the FRBs).

Downs-downs were awarded to:-

Hares - Hold It For Me and Earl of Pampisford.

Visitors - Bobbi and Tamsin.

Returnees - Spicy Bear and Forest Dump.

Big Leg - 400 runs presentation.

Earl of Pampisford - being unable at ^a checkpoint to tell walkers where his trail went.

Taxidermist - Hash Shit (for snitching on who broke the fence at pre-run photoshoot).

Blowback - for overtaking Calamity Jane multiple times during the run.

Double Top - for crablike walking pre-run (did she have little crabbie in her snitch?).

Pedro - not sure what for.

Calamity Jane - lost property (losing her hat on trail which was firstly picked up by our Grandmistress Big Swinger only for her to lose it before El Rave returned it to our GMs).
