Sunday, the 1st of July 2018 hash number 2074 I think I've just carried dizzy the dog over sty because there was no holes and now we are stuck at the gate and there's two houses there I don't know the names what's your well I'm trying to dictate the notes ha ha hapassing some fields on the right with some horses look like they wanna join in. just reached a clearing for the fashions clingy Dave the rave hand a few others looking totally lost three options here so we are completely confused where we are on on down below if you have found this avenue have beautiful orchards. Just reach the road caught up with mother and smother her ashes but I know now it's back through the gate and how long the field that's good honey yeah where is your where is your dog is it, only go past the field Avenue Lisa and crops m I were really electric now just passing bedsores and Claire no I..of course bringing your phone on the hair is it soon so I will probably get down down for this if I'm luckysaid Klinger wimp has just running with checkpoint at the moment we seem to have a similar place she is running in blue today with a hat and black trousers just had a check back went and told it for me have gone past again and Jetstream has just caught up he's wearing white black leopardskin hat just passed us but today no black Labrador who is having a rest. Hold it for me has just gone by and thanked me for writing this but could be a load of rubbish. Some of the last paragraph is out of order by the way. On on. It's a beautiful sunny day blue skies very hot about 27° I think just approaching a field full of rape seed Yellowfield hand checkpoint. Generator is here not checking it out as usual oh sorry she checked out the last one. well we want to but have to check back so just overtaken by hold it for me and went for the third time. Here we are in a beautiful field full of cows ashes approaching from different directions or are they both okay and some sheep dizzy the dog is on the lead. just 2 miles in large field hashers council and sheep and the dog.. good morning Begari good morning we just met in the kissing gate but this he doesn't get a kiss. now running down a cool shaded path and arriving at a new road and a CH3 arrow which says turn right. Then off up the hill through the crop fields on under another shaded path very pleasant A a small aeroplane passes overhead. Over a little wooden bridge and now we have done 3 miles hopefully halfway maybe we are now running with unmentionable and Antar and we just reach the checkpoint called LE a RL. Another path shaded by woods just what we need and mother and checkpoint passes. we can hear traffic in the distance maybe we are near the A14. Passing another field of turnips parsnips planted in Nidaros there must be millions and alas there is another check back however there is no sign of some of the front runners. There is a sneaky right turning halfway through to the road that explains it and it is not the A14 at all it is what it is the bar Hill loop. And turn left up another path partially tree covered and tree lined up a slight gradient and here [is.be](http://is.be) a stop who says follow the trail to the best of. just passed 4 mile point. Passing field on the right full of beans hey look like broad beans and they taste very nice. When passing through A small housing estate to the best up at 4 1/2 miles. Where we all met up with the walkers for some ghost hello ship sale and chocolate cake and a whole washing up bottle of water for dizzy then just ran the corner back down to the pub. And we have just met oh Lala who walked round the trail. So down down to 2 visitors from Hong Kong Hong Kong dressed in yellow to attract flies and today has been Ghazi and they stop One for a checkpoint but she's already checked out for swearing on the trail was awarded to permit for being a lookalike. One donated to send gentleman what's the score to Antara. A down down awarded to the big Springer for going in the opposite direction to the arrow. One to me that the Titanic for writing is

rubbish. Another countdown to coming. One for when he lost his passport overboard. Are you down down for 10 bedsores for deciding it and for caring it out.

Having dictated the main body of the report during the run what is left is for me to summarize and dictate into my iPad as I relax in my bath.

Having just watch the Austrian Grand Prix after getting back from the hash in which young max one in Austria for Redbull. I don't know how many of you have tasted Redbull but it is amazing they can sell enough stuff to run formula 1 team. Can you fart on a recent Monday hash he has decided we would pick up litter and Karolis. It was amazing that all the cans of Redbull picked up off the street was still half full except for one that just goes to show there is at least one person outthat fact likes it. Just think how well they could do they marketed a nice been bitch no beer. My iPad does not understand bitch beer.

To summarize we started at Blackhorse Public accounts and drive tonight and we went for our smiles and hot sunny weather and some nice countryside was not fiancé sublease Siri call me John Savill and enjoyable be strong.

Actually this is not working at all we have a new boss it is a Victoria and Albert andto be honest the acoustics do not seem to work with I'm tired of Siri next timeWill have to try the other bath which is a Betting bath.
